NOTIFICATION OF REASON FOR REFUSAL

Application No.	Japanese Patent Application No. 2002-004490		
Drafting Date	July 9, 2004		
Examiner	Osamu KAWABATA	8718	3V00
Agent	Mitsuru KIMURA (and other one person)		
Articles Concerned	Japan Patent Law Section 29 Subsection (2)		

The present application is rejected based on the following reason. Your opinion against the rejection will be acceptable within 60 days from the mailed date of this notification.

REASON

The invention in the below claims of the subject application should not be granted a patent under the provision of JAPAN Patent Law Section 29 Subsection (2) since it is an invention that can be easily made by a person skilled in the art, based on inventions described in publications listed below which were distributed in Japan or foreign countries, or inventions that can be used by the public through telecommunication lines, prior to the filing of the subject application.

NOTE

(see List of Cited References, etc. with regard to cited references, etc.)

- Claims 1 to 6
- Cited References 1 to 3
- Remarks

Power source apparatuses having standby modes are disclosed in Cited References 1 to 3. The present invention has a structure that the electric supply (starting of operation) of the switching control means is carried out faster in a case where the standby mode is set. However, it is apparent that it is preferable that electric supply is carried out as fast
